YACHT DESCRIPTION:

Architect:	Wally / Allseas Team	Material:	GRP
Internal Furniture:	Wally & Luca Bassani	External Hull Colour:	Ice Blue

The WallyPower 58 is one of the most distinctive models in its class, combining contemporary design, innovative deck architecture and effortless usability. Conceived as a yacht equally suited to day cruising and extended weekends aboard, it offers expansive exterior living areas, remarkable stability at anchor and the clean, architectural styling that has become synonymous with the Wally brand. M/Y AERRO is a 2024 example presented in truly as-new condition, finished in elegant Ice Blue and carefully maintained since delivery. Lightly used and ready for immediate enjoyment, she represents an opportunity to acquire a highly sought-after model without the lead time of a new build.

LAYOUT:

M/Y AERRO features a practical and highly sociable layout designed around effortless day boating and short stays onboard. The main deck centres around a spacious cockpit with opposing seating areas and direct access to the lateral hydraulic terraces, which significantly expand usable deck space at anchor. A large aft sunbed provides additional lounging space, while the helm and companion seating are positioned forward beneath the hard top. Below deck, the accommodation comprises a guest cabin with private head, complemented by a separate day head. The lower saloon incorporates a generous double sofa dinette, creating a comfortable interior space for dining, relaxation or occasional overnight use.

BROKER COMMENTS:

AERRO is a 2024 Wallypower 58 presented in as-new condition, finished in Wally's signature Ice Blue with Silvertex Mandarin exterior upholstery - a combination that works precisely because Wally's design language allows no compromise.

The brief behind this yacht is clear: performance and presence in equal measure. She delivers both. Handling is confident, navigation systems are state-of-the-art, and the specification reflects an experienced owner who understood exactly how to configure the product.

Below deck, the layout offers a single cabin with two bathrooms, along with a dinette with two sofas that convert to double berths - a practical addition that extends guest capacity without disrupting the clean, architectural lines of the interior.

Turnkey, fully specified and ready to go. One of the more complete and correctly configured Wallypower 58s currently available on the market.
